

DISCLOSURE STATEMENT

As a means of complying with 37 CFR 1.56, 1.97 and 1.98, applicant submits this information Disclosure Statement.

The pertinent prior art of which this applicant is aware of are:

- ✓ M.F. 1. U.S. Patent No. 5,911,792 by Jaimes June 15, 1999 entitled "Bicycle Crank System". Jaimes provides a system with each crank presenting an orifice located at the middle part of the crank to eliminate dead spot.
- ✓ M.F. 2. U.S. Patent No. 5,257,562 by Nagano November 2, 1993 entitled "Bicycle Crank Mechanism". Nagano provides a crank mechanism including a rotatable crank arm and a pedal rotatably supported by a pedal shaft so that the position of the rider's foot relative to the pedal shaft may be changed.

The prior arts are not really pertinent to this applicant's Concept of increased pedal strokes as a result of reverse pedalling.

Related papers are enclosed.

Respectfully submitted,
